

Mouse ELL-associated factor 1 (EAF1) ELISA kit

Cat. No.:	OB0625WXX-597
Assay Type:	Quantitative ELISA
Target Species:	Mouse
Assay Target:	EAF1
Size:	48T; 96T

This product is for research use only and is not intended for diagnostic use.

Product Overview

Description	Mouse ELL-associated factor 1 (EAF1) ELISA kit is an ELISA-based <i>in vitro</i> research tool designed specifically for the quantitative detection of EAF1 in mouse with high sensitivity and specificity.
Assay Principle	The kit is based on EAF1 antibody-EAF1 antigen interactions (immunosorbency) and an HRP colorimetric detection system to detect EAF1 antigen targets in samples.
Background	EAF1 is a protein that interacts with ELL proteins and functions as a component of transcription complexes to enhance transcription elongation by RNA polymerase II.
Synonyms	ELL associated factor 1
Formula Weight	28,967 Da
Applications	Mouse ELL-associated factor 1 (EAF1) ELISA kit is an important tool for the quantitative detection of EAF1 in various biological samples of mice.
Research Area	Regulation of transcription

Specification

Sample Type	Mouse samples
Cross-reactivity	No significant cross-reactivity or interference was observed.
Storage	Store at 2-8°C.
